

LUND
UNIVERSITY

Summer Course in Adding the Geographic Context to Demographic Analysis

Lund, August 17-26, 2015

Sources, methods and theories of historical demography and GIS:

- Historical maps
- Introduction to GIS
- Scanian Economic Demographic Database (SEDD)
- Linkage of demographic and geographic data
- Geographic context variables
- Intermediate Data Structure (IDS)

Structure:

- Theoretical lectures
- Data collection and structuring using GIS
- Data analysis

Instructors:

- Tommy Bengtsson
- Lars Harrie
- Finn Hedefalk
- Luciana Quaranta
- Patrick Svensson

Prerequisites: Knowledge of demographic and quantitative methods. Applicants should either be enrolled in an MSc or PhD program or have recently received their PhD.

How to apply: Application deadline is 30 March 2015. Information of admittance will be sent on 15 April 2015. A maximum of 20 students will be admitted.

Apply via email to Madeleine Jarl (madeleine.jarl@ekh.lu.se) by sending (1) a one-page statement of research interest and its link to the course and discipline, (2) a two-page curriculum vitae, including scholarly publications, (3) a one-page reference letter.

The course is organized by the Research School of the Centre for Economic Demography (CED) and the GIS Centre, under the auspices of the European Historical Population Samples Network (EHPS-Net). There is no tuition fee and CED will cover lodging costs. A limited number of travel and accommodation grants co-funded by the EHPS-Net will be provided.
